

Brand Cleaners are dry cloth cleaners specially designed to clean single fiber connectors residing in an adapter, faceplate or bulkhead. The dust cap of the cleaner acts as an adapter for cleaning unmated connectors.

The Brand Cleaners for simplex connections are simple to use and highly effective at removing oil and dust contaminants that can negatively impact optical performance.

- Brand Cleaner SC for 2.5mm connectors
 - Designed for SC, ST and FC for UPC & APC polishes
- Brand Cleaner LC for 1.25 mm connectors
 - Designed for standard LC, LC secure key and MU for UPC & APC polishes

Features

- Easy pushing motion engages connector and initiates cleaning
- Disposable with 525+ cleanings per unit
- Made from antistatic resins
- Cleaning micro fibers are densely stranded and debris free
- Cleaning system rotates 180° for a full sweep
- Extendable tip reaches recessed connectors
- Audible click when engaged
- Proven effective at removing:
