

Fiber to the Home (FttH) is a broadband telecommunications system based on fiber-optic cables and associated optical electronics for delivery of multiple advanced services such as of telephone, broadband Internet and television across one link (triple play) all the way to the home or business.

Mulder-Hardenberg and the Quintis brand have been active in the FttH market since the beginning. Together with our supplier we designed and engineered a custom-made solution specific for the Fiber-to-the-Home industry. We offer an end-to-end solution for the Points of Presence (PoP's).

Our experienced staff has extensive knowledge of our wide assortment of high quality products and can help you decide whichever product is best for your situation. If desired we can often help you customize our products to create customer-specific solutions. Our one-stop shopping solutions consist of products and services in the following product groups:

- Active Fiber Optic Components
- Benchtop labelprinters
- Cabinets & Server Racks
- Cable Installation accessories
- Copper Data Cabling
- Data cable intrusion detection
- Fiber ducting
- Fiber Optic Cable Management
- Fiber Optic Cabling
- Fiber Optic Components
- Fiber Optic Tools
- Hubs, Switches & KVM solutions
- Labels
- Networking Environment
- Portable labelprinters
- Structured Cabling Systems
- Wire trays

See next page

Mulder-Hardenberg have several specialties that can assist our customers in the (petro-)chemical industry with their projects. For each of these specialties our product experts are glad to assist you with any project or question you might have:

- Cable Management
- Fiber Optics
- Labeling
- Networking
- Security Systems

In the past Mulder-Hardenberg has worked together with a lot of different customers in the Fiber-to-the-Home industry to help them with their challenges. See our related cases for some of the projects we've implemented for our customers:

Fiber for IJburg Amsterdam

For the FTTH project IJburg Amsterdam, Mulder-Hardenberg developed in cooperation with the customer, a solution for the distribution of fiber optic cabling.
